# FINE PRINT NOTES - ELECTRICAL SHOCK AND CONTACT RELEASE REFRESHER TRAINING

- Some material reproduced with permission from NFPA 70E-2018, Electrical Safety in the Workplace, Copyright 2017, National Fire Protection Association. This reprinted material is not the complete and official position of the NFPA on the referenced subject, which is presented only by the standard in its entirety.
- The Arc Flash Institute is not affiliated with or endorsed by the organizations referenced in this presentation, including but not limited to: NFPA, OSHA, Westex, Mayo Clinic, ESFI, Fire Protection Research Foundation, Mitchell Instrument Company, etc.
- The material presented should only be considered a small part of a complete electrical safety training plan.
- This material may not be adequate or applicable to all situations. Contact your site designated health and safety coordinator to review the material.
- See the “Terms of Use” of Arc Flash Institute material here: <http://arcflashinstitute.com/terms/>
- ⚡ We offer in-person training classes at your facility which teach the fundamental components of the industry accepted safety standards. The class can be formatted to fit the specific needs of your facility or can be a general overview. Contact us for a quote today for this training which will help you comply with the NEC, NFPA-70E and OSHA arc flash and electrical safety requirements!
- ⚡ Electrical Safety Policy - Let us provide written electrical safety policies which are required by OSHA and the NFPA 70E. Electrical safety, energized work, lock out tag out, shock prevention, arc flash awareness, and PPE topics are all covered in a written policy.
- ⚡ General Consulting - If you don't know how to get started with arc flash compliance or if you have any questions, don't hesitate to contact us and we'll get you started in the right direction.
- ⚡ Contact us for additional technical training and safety training needs.
